1. Source stated that he believed that, if suitably approached, Prof. HANFINGER would be a source of valuable information in the field of Cyrena material. Source considers HANFINGER completely trustworthy and western oriented. If such work is going on in Hungary, Source feels he is the one man who would inevitably know about it.

2. Source also named CRISZAI as a man who would be willing, if approached properly, to provide detailed information on his own field of research.
